MARISTONE OF PROVIDENCE

*Make It Possible...
Make It Maristone*

Memory Care Neighborhood

Maristone of Providence offers a distinct memory care neighborhood that is the perfect environment for residents experiencing the early and middle stages of the Alzheimer's or Dementia journey.

The neighborhood customizes the care and program based on the resident's individual strengths and needs. The unique structured program provides the opportunity to maximize and sustain each resident's independence.

The programming consists of physical, cognitive, creative, sensory, and spiritual activities along with a variety of other outlets that allow them full freedom of expression.

There is also a strong focus on service projects with the goal of involving and keeping our residents active in the community.

Assisted Living Apartments

Everyone loves freedom and choices...we kept that in mind while designing our Senior Apartments. Our Assisted Living Community offers services that are tailored to meet the needs of each individual, allowing them to live life to the fullest.

Our senior apartments are available in a variety of floor plans and decorated as you so desire, making a familiar and comfortable atmosphere where family members and friends can visit. Our residents enjoy the company of their neighbors while enjoying three meals a day offered in our unique, restaurant-style dining room. There are many opportunities to participate in a wide range of planned social activities, scheduled transportation to shopping, restaurants and appointments. Our healthcare team is available 24 hours a day. We continue to add services designed to keep our residents as active as they desire while having the comfort and security of living in a senior community.

Respite Care

Respite stays are an option for those who need care on a short term basis. This allows home caregivers the ability to travel, start a new job, or recuperate from an illness. Many find Respite stays the perfect option for recovery from surgery or hospitalization. Should a short stay require extended care, we can accommodate that as well. We carefully examine the needs of our respite guests and provide the level of care required to make their stay comfortable and enjoyable. Family members leave with the confidence that their loved one is safe and in good hands.
